*...a refreshingly relevant new show
on Sunday morning radio!*

About This Show

I have been studying the biblical signs of the end of days for over 30 years. When I realized we are actually living in these times, a new mission was born!

I began *"Lessons in the Ladder Days"* as a biblical commentator and chronicler to help others make sense of the times and find their places in it.

Each episode (radio show) represents months and even years of research offering edgy, non-denominational programming on current affairs in light of God's biblical timetable. I self-funded this labor of love and launched on [WDUN AM550/FM102.9](http://WDUN-AM550-FM102.9) in my hometown of Gainesville, GA in February, 2021.

The response from listeners has been astounding. My podcasts are being downloaded all over the US and in Canada, UK, Europe, Japan, Hong Kong, Africa and Israel.

Listeners are hungry to know what's happening...how to protect their families...and make wise decisions for the road ahead.

My goal for each show is to offer listeners a calm place of refuge on Sunday mornings as well as a biblical lens through which to see God's narrow path clearly.
