

The red circle is the Flight Restricted Zone (FRZ) around Washington, DC. The blue circle is called the SFRA (Special Flight Rules Area), which requires planes flying in and out to be carefully monitored and go through certain procedures, though not as much restriction as the FRZ.

Of special interest to intercessors, perhaps, is that the airspace around our nation's capital is made up of 8 GATES!!! Pilots giving flight plans have to state where they are coming from and going to, and through which gate. It gives Psalms 24:7-10 new meaning: "Lift up your heads, you gates..." We have authority to open these gates for the King of Glory to come in!!

**HOW TO INTERCEDE
OVER THE INVISIBLE
GATEWAYS
IN THE AIRSPACE
SURROUNDING
OUR NATION**

This is a graphic depiction of the airspace and air defense zones around North America.

We can call these invisible areas by name and pray for an increase in angelic forces to do battle against the evil coming against our country.

What we are doing is invading the area governed by the prince of the power of the air. This prayer strategy is for those whose walk with the Lord is a mature one, who live 24-7 undefiled, under the blood of Jesus.

May we do battle with spiritual accuracy that pierces barriers we may not have been aware of before!
